

IN THE SPECIFICATION

Please replace the second paragraph on page 14, lines 14-19 with the following amended paragraph:

- -As seen best in Fig. 14, mouse 10 is adhesively attached to palm portion 102''' via adhesive patch 108'''. Optionally, palm portion 102''' is provided with two spaced apart downwardly-depending ~~legs~~ legs 103 which straddle mouse 10 and which are provided with self-sticking pads 103' by which they can be affixed to the lower lateral sides of mouse 10. - -

Please replace the second paragraph on page 15, lines 10-18 with the following amended paragraph:

- - Figure 18 discloses a further embodiment of the invention wherein the thumb and finger guide and supporting structure 100'''' has the wing-like palm portion ~~102'''~~ 102'''' with the outline of the user's head formed thereon to show the correct positioning of the user's fingers. Preferably, the outline is recessed in the palm portion to provide a more ergonomic positioning of the user's hand. The thumb guide ~~104'''~~ 104'''' and finger guide ~~106'''~~ 106'''' are the same as shown in Figs. 13-15. In this embodiment, palm portion ~~103'''~~ 102'''' is covered with a fabric material. - -
